Really wish Stallman would've just stayed away from the topic. Hell, I wish he kept his opinions about things beyond the Free Software Movement completely private. I just hope the Free Software movement will recover from the founder turning out to be a pedo lover. This ain't good

I see RMS as a victim of fake news generated by partially quoting his statements. I stand by the FSF and RMS.

Well, mob mentality wins again. I'll stay in the FSF anyway. If you happen to go to NY someday I will be honored to meet you and shake your hand, Richard Stallman.

You are a gentleman and a scholar, sir!

Gentlemen don't shake the hands of misogynists and pedophile apologists. Scholars read up on the facts before making pronouncements.

I'm an aspie. I know better than to treat women as objects, let alone to defend Epstein. I'm sorry that your hero is such a slimeball underneath, but too often heroes are like that. Read what his victims say, not just his excuses.

Well, then you may understand him better. He is on some spectrum, I can't state what does he have, but for sore this guy is not neuronormative. And people is bashing him without realizing that he never got a mental check. And it needs it for sure.

neuroatypicality ≠ autism ≠ bigotry.

most autistic people aren't as misogynist/racist/ableist as Stallman.

(or as Damore, same excuse lol rationalwiki.org/wiki/James_Dam...

Stallman literally is running articles on his website blasting Trump for getting immigrants killed and talks nonstop about refugee issues and is

being targeted over a miscommunication issue and words taken out of context. He's not any of those

1) huh, Stallman can both do good things and bad things?? (please read https://en.m.wikipedia.org/wiki/Horn_effect since you didn't know that opposing ethnic cleansing doesn't "excuse" supporting pedophilia.)

2) his abusive actions are worse than his pro-abuse beliefs.

Apocalymon @GamerApocalymon · Sep 17

if he's an actual abuser then fuck him though, I only care about the FSF dropping the ball on his speech rights and caving to media allegations that had nothing to do with that.

I'm still unsure why resignation and "apologizing" make everything ok? Am I missing something here? Nearly all people caught have done this. Does this get them off the hook? I would hope not.

What would be satisfactory punishment for an OPINION you disagree with? Breaking him on the wheel? Have his relatives executed?

I'm not sure I understand your question regarding an OPINION but there is much more in all this #Epstein the surface is barely scratched and doubtful the public would really see the true nature of the this. But I would look at your kids etc and ponder. What is suitable.

The man is a genius who after 50 years of amazing contributions finally says one crazy thing too much. Way to kick the disabled when their down, folks! #fairweatherfriends

Oh please fuck off. He's been doing things that should have had him kicked off for years, but celebrity and shame kept it all in the shadows.
