**Web Hosting Customers:** If you have purchased web hosting, please note that it will take up to 6 hours for the account to be provisioned. We setup accounts manually (due to fraud checks). Once the package setup is complete, you will receive a welcome email with IP address and hosting account information.

NOTE: If there are any domains that are not registered, then we will try to register the domain and add it to your account or the charges that were made for those unsuccessful registrations will be credited back to your account.

Please note that .eu domain renewals doesn't happen immediately. It will take up to 24-48 hours for the domain to be renewed and reflected on your account. Please don't try to renew your domain again as it may not be extended properly. Please wait for 48 hours before trying again unless an error occurs and you were explicitly requested to try another time. The new expiration date will show \*only after\* 48 hours. If there is any problem with the renewal, the funds that you paid will be refunded back to your namecheap account and you are required to try again. We apologize for the inconvenience.

Please save the information on this page for future reference. Also note that an e-mail has been sent to the e-mail id on your profile with this information.
