### Yunnan Zoo shows "sheep-deer love"

Yunnan Wild Animal Park's "sheep falls in love with spotted deer [Sika Deer]" affair has attracted people's attention and though a majority of people both believe and support the "love" of two animals, this affair has also been questioned and met with suspicion by many. November 26, zoo officials posted mating photos on their microblog to respond to these suspicions.

So... is Jackie bucking for admittance to the CCP? Seriously, the way he has been harping, one would think he is.

You know this is going to lead to a number of "Why doe[s] prefer rams to bucks" stories.

All the rams will be preening themselves and saying "bucks don't know how to treat doe[s] right. they're all mummy's bucks and they have small penis' too. The bucks of course will respond that "only slutty doe[s] would be seen with a ram anyway, it is a disgrace to deerdom, but at least she's not going out with a horse" because we all know what horses are like right?

aw shucks.

I think that Fauna being the clever and subtle wee Shanghainese lass that she is, probably had an idea about the subtext of this story anyway so I think you give me too much credit [not that it's unappreciated though!]

The comment of the deer's relatives wanting the ram to buy a house and a car for the deer is hilarious! Cheers for that!!

The Toronto zoo in Canada separated two "gay lover" penguins. You can google it.

Patrick → Foreign Devil • a year ago

Yes but they caved to the gay activist pitching a fit. They only separated them because those penguins are endangered.

Gay Azn Boi → Foreign Devil • a year ago

Haha I know it's so sad.....they're being separated for "mating purposes" cus they're endangered. Like WTF that's so cruel. I live in Toronto btw.

Who are these people who have been questioning and meeting these two with suspicion? Huh?!

0 ^ | | v • Reply • Share ›

terroir → andywattbulb • a year ago

If the zoo supports the idea that these two animals are in love, then it isn't a stretch to say that the zoo also supports the idea that animals have emotions.

If animals have emotions, then just think what they go through in order to be our tasty meals. Of course, the zoo just supports more zoo admittance and not animal awareness.

What a remarkably unimpressive story.

What about the reaction to school buses being sold to Macedonia or the recent crash in Lianping?

Liaoning?

Have the hits gone down far enough that this was deemed necessary to garner attention?

(Shame on me for even clicking on this story...)

This might be the greatest story chinaSMACK has ever dealt with. How priceless is that pic of a sheep fucking a deer? Answer: reasonably priceless. They even cuddle afterwards. I'm jealous.

Maybe so but i think the ram is already paying the deers rent. And i assume it s the deer's friends or relatives in the background. So its only a matter of time before the deer's parents starting asking when is she going to marry. I bet the ram is working hard now to buy a house or car or maybe both!
