Request details

Thousands upon thousands of people are contacting us with suggestions and proposals. Please use this space to describe your proposal in detail and make sure we have sufficient information to evaluate it.

Be sure to write in English only. *

Please describe your proposal in as much detail as possible

I want to suggest you add the following functionality to SkypeOut: transmit as caller-ID my home phone number whenever I use SkypeOut.

What is the value for Skype in terms of number of new users, revenue, etc.?

SkypeOut callers can be identified by name or number and calls can be returned by button pressed. This increased comfort level will result in more people using and paying for SkypeOut.

What is the value for your company in terms of number of new users, revenue, etc.?

You could pay me a thank you instead of a patent royalty.
